ABOUT US:

VTN GARMENTS is a well-established Manufacture & Exporter of different type of knitted garments for Adults and Kids, Women's and Men's wear since 1993. Our Company is located at Tirupur, in India. A place that has for centuries been perceived as the land renowned for its knitwear business, moreover it is located close to the airport and all major south Indian sea ports which make our transportations easier.

Team :

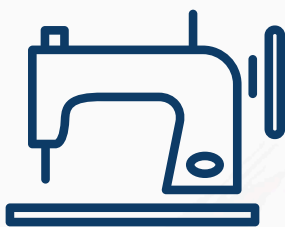

Mr.N.Jayakumar , Managing Director and founder of the Company started the business in early 1993. He is being Born and brought up from the textile manufacturing Background family Jayakumar inherited all the business Knowledge from his father and partnered with young budding Minds and 30 years from then, now the Company has grown and feeding the global market Up to 1, 00,000 pcs/per month. Our business is now involved by second and third generation technical team Co-equipped with the skilled manpower guided by the MD

FACILITIES & CAPACITIES:

We have over 150 newly imported “JUKI” branded sewing machines from Singapore installed across our widespread factory setup. Starting from yarn we source the best quality yarn from the market leading supplier and Knitted into Fine quality fabric by our associated Knitting Unit.

Once the raw fabric is ready all the added work like Dyeing, Printing (AZO Free & Eco Friendly), Washing, Compacting, and Embroidery are done in-house by our associated partners. With the technical staff of 20+ years of textiles knowledge supported by 200+ skilled labors make us possible to produce 100,000 pcs per month capacity. Along with this our logistics team will ensure all the dispatch process is smooth all the time. Delivered on Time, Every time.

Our Products

We offer a comprehensive range of knitted garments, catering to all ages and genders. Our specialization in fashion ensures stylish and comfortable options for infants, children, women, and men.

Client Base

We have a strong international customer base, exporting our knitted products to the United States, Mexico, the United Kingdom, New Zealand, France, and the United Arab Emirates.

Quality Policy & Process :

In VTN Garments, quality assurance has been integrated with internationally recognized systems. This ensures greater customer acceptance and satisfaction, when it comes to product range, style and distribution network. We also have associated companies in dyeing, printing & embroidery. We have also developed our own quality checking systems to ensure 100% perfection unto the last thread. For all the current client orders Testing has been done in the Fabric Form and the finished garment by the world-renowned testing agencies and the Final Random Inspection will be offered to the Buyer recommended agency

We do have in-house equipped LAB facility

Starting from choosing the right yarn to till the garments gets dispatched we take care of the quality in each process. We make sure each process is pre-planned as per the customer's requirement and delivery timeline. We always ensure proper communication is done with the customer to understand the specific need and will update the status of each process in a timely manner. This ensures transparency for the customer to know the exact status of the purchase order.
